### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

1. The application has been amended as follows.

The specification is amended as follows.

Insert before the first paragraph:

This application claims priority to Spanish Application No. 200402282/5, filed on September 24, 2004.

2. The following is an examiner's statement of reasons for allowance. The article submitted by Applicant on June 15, 2007, Stockley et al., "Ongoing research in Europe: Alpha One International Registry (AIR) objectives and development," Eur Respir J 29:582-586, 2007, discloses that the purpose of the AIR is the collection, assessment and dissemination of information on all aspects of alpha-1 antitrypsin (AAT) deficiency to enable collaborative research and high-quality clinical trials (see p. 584). The AIR patient records provided by Applicant disclose that his patients, who have genetic AAT deficiency, suffer from fibromyalgia and that they take medication for lung disease, as well as an alternative treatment. But, the patient records do not disclose that either the medication or the alternative treatment is AAT (i.e., AAT replacement or augmentation therapy).
